Falls Church Moves to www.fallschurchva.gov July 1, 2005

FALLS CHURCH, VA – Falls Church City's home on the Web is easier to find than ever at www.fallschurchva.gov beginning July 1, 2005. Enjoy the same superior service delivery at a simplified Web address and e-mail extension, and say goodbye to www.ci.falls-church.va.us!

Along with the new address comes an improved Web site with expanded content and pages that are easier to navigate. The City will also launch a new online bi-weekly newsletter -- *e-FOCUS* -- beginning in July, bringing more in-depth information about City policies and service delivery.

The *e-FOCUS* will highlight the City's most important issues as identified in the City Council's two-year work plan adopted in 2004, specifically focusing on financial, environmental, transportation, economic development, and housing issues. Anyone interested in receiving the *e-FOCUS* via e-mail can register through the City's Web site, at www.fallschurchva.gov.

For more information, call the Office of Communications at 703-248-5003.
